

SEPTEMBER 13, 2021

Concert and Sight-Reading Adjustments Extended

The following concert and sight-reading adjustments from the 2020-21 school year have been extended through the 2021-22 school year.

- The requirement for a school to enter a varsity music ensemble when participating in concert and sight-reading evaluation for the 2021-22 school year has been waived. When completing the registration process with the music region, each school may declare the status – varsity, non-varsity, or sub-non-varsity - of each band, choir, and orchestra ensemble that participates in concert and sight-reading evaluation.
- For the 2021-22 school year the prescribed music list requirements and sight-reading levels have been [adjusted](#). The resulting sight-reading levels and associated **time structures** may be found [here](#).
- [Band Sight-Reading .5 Criteria](#)
- [Orchestra Sight Reading .5 Criteria](#)
- [Choir Sight Reading Criteria](#)
- Flex versions or adaptable arrangements of pieces on the PML may be substituted for the version on the PML, provided the substitution is considered to be unabridged to the version on the PML as defined at <https://www.uiltexas.org/pml/>.
